

Exam requested by:
THOMAS ODDO DC
12 E 44TH ST, 5TH FL
NEW YORK NY 10017

SITE PERFORMED: KEW GARDENS

SITE PHONE: (718) 544-5151

Patient: WOODS JR, JR, WAYNE
Date of Birth: 09-20-1980
Phone: (267) 980-0735
MRN: 15372195R **Acc:** 1024031568
Date of Exam: 08-05-2022

EXAM: MRI RIGHT KNEE WITHOUT CONTRAST

HISTORY: Knee pain.

TECHNIQUE: Multiplanar, multi-sequence noncontrast MRI of the knee was obtained on a 1.5T scanner according to standard protocol.

COMPARISON: None.

FINDINGS:

Menisci:

The medial meniscus is intact.
The lateral meniscus is intact.

Articular cartilage:

The cartilage of the medial compartment is preserved.
The cartilage of the lateral compartment is preserved.
The patellar and trochlear cartilage is preserved.

Extensor mechanism:

Intact visualized distal quadriceps tendon.
The patellar tendon is intact.
Intact patellar retinacula.
No edema in the Hoffa's or quadriceps fat pad.

Collateral Ligaments:

Intact medial collateral ligament (MCL). The visualized pes anserine tendons are intact. Intact semimembranosus tendon.
Intact lateral collateral ligament (LCL). Intact visualized iliotibial band, distal biceps femoris tendon and popliteus tendons.

Cruciate Ligaments:

Intact anterior cruciate ligament (ACL).
Intact posterior cruciate ligament (PCL).

Patient: WOODS JR, JR, WAYNE
Date of Birth: 09-20-1980

Bones:

No occult fracture or osteonecrosis.
Intact proximal tibiofibular joint.
Small bone island on the lateral tibial plateau.

Fluid:

Physiologic joint fluid.
Small multiloculated popliteal cyst.
No synovitis or intra-articular body.

Muscles and nerves:

No muscle atrophy, or edema.
The visualized sciatic tibial, and common peroneal nerves are preserved.

Soft tissue: No subcutaneous edema or focal fluid collection.

IMPRESSION: MRI of the right knee demonstrates:

1. Small multiloculated popliteal cyst.
2. No meniscal tear.
3. Intact cruciate and collateral ligaments.
4. The articular cartilage is preserved.

Thank you for the opportunity to participate in the care of this patient.
